e. Be specific when you describe what you liked or dislike. Let me know why you thought the Technical elements were good or bad. Just writing “ the set looked cool” or “ the lights were horrible” will not suffice. Indicate how each element worked with or worked against the others and how the overall effect of all elements worked or didn’t work for you based on what you saw.

f. This paper will also be graded not only on content but on correct writing and grammar skills. You can get a failing grade if it is written poorly!

g. Either the ticket stub or the program needs to be stapled to the back of the paper when you turn it in.

h. This paper is due each semester 1 week before the start of Final Exams. December 5th 2011 and May 17th 2012
